Ingredients

- 1.8 cups ground coffee
- 8 servings ice cubes
- 8 servings milk for serving
- 2 ounces pernod chilled
- 2 cups water cold

Equipment

- bowl
- sieve

plastic wrap

Directions

- Place the coffee grounds in a 2-quart pitcher, add the water, and stir to combine. Cover with plastic wrap and let steep at room temperature for at least 12 hours and up to 1 day. Line a fine-mesh strainer with a standard coffee filter and fit it over a medium bowl. Working in batches, slowly pour the coffee into the filter until all of the liquid has passed through the strainer (the coffee will pass through in a slow stream; don't force it through); stop when you reach the solids at the bottom of the pitcher (don't pour them in). Discard the grounds and the contents of the strainer. Wash and dry the pitcher.
- Transfer the strained coffee into the pitcher. Cover and refrigerate until completely chilled, at least 2 hours or up to 5 days. For the cocktails: When ready to serve, add the water, amaretto, and Pernod to the strained coffee and stir to combine.
- Serve over ice, passing milk on the side.
