DESSERT

## Ingredients

- 1 pound bittersweet chocolate 60% chopped ( cacao)
- 1 cup pumpkin pie filling/mix pure canned (not pumpkin pie filling)
- 8 ounce cream cheese softened
- 1 large eggs
- 2 tablespoons graham cracker crumbs
- 0.5 teaspoon pumpkin pie spice
- 0.5 cup sugar

- 1 teaspoon vanilla extract pure

## Equipment

- bowl
- frying pan
- baking sheet
- sauce pan
- oven
- hand mixer
- wax paper
- ice cream scoop
- lollipop sticks

## Directions

- Heat oven to 350°F with rack in middle. Oil pie plate.
- Beat cream cheese and sugar in a large bowl with an electric mixer at medium speed until creamy and smooth, then beat in egg until combined.
- Add pumpkin, vanilla, and pumpkin pie spice and mix on low speed until smooth.
- Pour batter into pie plate and bake until edges are set and center is still a little wobbly, 25 to 30 minutes.
- Transfer to a rack to let cool completely. (Cheesecake will set completely as it cools.)
- Cover cheesecake with a round of wax paper or parchment then wrap in plastic and chill until cold, at least 3 hours.
- Scoop out pumpkin cheesecake, packing cheesecake in ice cream scoop each time and leveling it off, then releasing it, flat side down, onto 2 small, wax paper-lined rimmed baking sheets. Freeze until frozen solid, at least 1 hour.
- Melt half of chocolate in a small, deep bowl set over a saucepan of barely simmering water, then remove bowl from pan.
- Working with one pan of cheesecake balls at a time (and keeping the other pan frozen), rest a cheesecake scoop on a fork and lower it into chocolate, then spoon chocolate over it to coat it completely.

- Let excess chocolate drip off, then scrape bottom of fork against edge of bowl and return coated ball, flat-side down, to wax paper-lined pan.
- Sprinkle with graham cracker crumbs and push a lollipop stick 3/4 inch through ball. Repeat with remaining balls on first baking sheet. (If cheesecake begins to soften, return to freezer to harden.) Refrigerate finished pops.
- Melt remaining chocolate in another small deep bowl in same manner and coat remaining cheesecake balls.
- Keep pops refrigerated or frozen until serving.
- Cheesecake can be baked 1 day ahead and chilled, covered. •You will have chocolate left over. Turn it into chocolate sauce with the addition of heavy cream. •Pops keep chilled or frozen in a resealable container up to 3 days. •Lollipop sticks can be found in the baking sections of large craft stores or online from Amazon.com.
