

Edward Kostyra's Birthday Cake

DESSERT

Ingredients

To ourices bittersweet chocolate very linely chopped
2.7 cups cup heavy whipping cream
1 teaspoon plus light
1 cup butter unsalted plus more for pans room temperature (2 sticks)
1.5 cups flour all-purpose plus more for pans
1.5 cups cake flour
1 tablespoon double-acting baking powder
1 teaspoon salt
1.8 cups sugar

	4 large eggs
	2 teaspoons vanilla extract pure
	1.3 cups milk
	12 large egg yolk
	2 orange zest
	0.3 cup orange juice freshly squeezed
	0.5 cup juice of lemon freshly squeezed
	1.5 cups sugar
	0.3 teaspoon coarse salt
	1 cup butter unsalted cold cut into small pieces (2 sticks)
Eq	uipment
	bowl
	frying pan
	sauce pan
	baking paper
	oven
	whisk
	wire rack
	sieve
	blender
	plastic wrap
	hand mixer
	wooden spoon
	spatula
	offset spatula
	serrated knife
	wooden skewers

Directions Place chocolate in a medium heatproof bowl. In a heavy saucepan over medium heat, bring cream to a boil and immediately remove from heat. Pour over chocolate and let sit, undisturbed, for 3 minutes. Gently whisk until combined and smooth. Whisk in the corn syrup. Let cool to room temperature, then transfer ganache to refrigerator and chill, stirring frequently and scraping the sides of the bowl with a spatula, until slightly stiff and cool enough to spread, about 1 hour. If frosting becomes too firm, briefly place bowl over a saucepan of simmering water and stir until desired consistency is reached. Frosting should be smooth and spreadable, but not runny. Make the cake: Preheat oven to 350 degrees. Butter two 8-by-2-inch round cake pans; line the bottoms with parchment paper. Butter parchment and dust with flour, tapping out excess; set aside. Into a medium bowl, sift together flours, baking powder, and salt; set aside. In the bowl of an electric mixer fitted with the paddle attachment, beat the butter and sugar until light and fluffy, 3 to 4 minutes, scraping down the sides of the bowl as needed. Beat in eggs, one at a time, and then beat in vanilla. With the mixer on low speed, add the flour mixture in three parts, alternating with the milk and beginning and ending with the flour; beat until combined after each addition. Divide the batter between the prepared pans and smooth with an offset spatula. Bake, rotating the pans halfway through, until the cakes are golden brown and a cake tester inserted in the centers comes out clean, 30 to 35 minutes. Transfer pans to a wire rack to cool 20 minutes. Invert cakes onto the rack; peel off the parchment. Re-invert cakes and let them cool completely, top sides up. Combine yolks, orange zest, orange juice, lemon juice, and sugar in a heavy-bottom saucepan; whisk to combine. Cook over medium-high heat, stirring constantly with a wooden spoon or heatproof spatula (be sure to scrape the sides of the pan), until the mixture is thick, about 8 to 10 minutes. Let mixture come to a vigorous simmer and cook, continually scraping sides of pan, for 2 minutes. Remove saucepan from heat.

curd to prevent a skin forming. Refrigerate until chilled and very firm, at least 2 hours or up to 11/2 weeks. Assemble cake: Using a serrated knife, trim the tops of the cakes to make level. Split each layer into two, for a total of four. Place bottom layer on a rotating cake stand and with an offset spatula, carefully top with 1/2 cup of orange curd, leaving a 1-inch border. Place the second cake layer on top, spread with another 3/4 cup of the orange curd. Repeat with the third layer; top with the final cake layer. Insert 3 wooden skewers into the top of the cake to secure. For the crumb coat, spread the entire cake with a thin coat of frosting using an offset spatula. Chill for at least 30 minutes. Spread the entire cake with remaining frosting, swirling to coat in a decorative fashion. Serve immediately, or refrigerate, covered with a cake dome. Let sit at room temperature for about 20 minutes before serving. Nutrition Facts	L	Add salt and butter, one piece at a time, stirring until smooth. If desired, strain through a fine
