### Ingredients

- 0.5 cup warm sieved apricot jam
- 4 tablespoons butter unsalted diced cold ()
- 12 tablespoons butter unsalted diced cold ()
- 2 tablespoons calvados
- 2 cups flour all-purpose
- 4 granny smith apples
- 0.5 cup ice water
- 0.5 teaspoon kosher salt

- 0.5 cup sugar
- 1 tablespoon sugar

## Equipment

- food processor
- bowl
- frying pan
- baking paper
- oven
- knife
- spatula
- melon baller

## Directions

- Watch how to make this recipe.
- For the pastry, place the flour, salt, and sugar in the bowl of a food processor fitted with the steel blade. Pulse for a few seconds to combine.
- Add the butter and pulse 10 to 12 times, until the butter is in small bits the size of peas. With the motor running, pour the ice water down the feed tube and pulse just until the dough starts to come together. Dump onto a floured board and knead quickly into a ball. Wrap in plastic and refrigerate for at least 1 hour.
- Preheat the oven to 400 degrees F. Line a sheet pan with parchment paper.
- Roll the dough slightly larger than 10 by 14-inches. Using a ruler and a small knife, trim the edges.
- Place the dough on the prepared sheet pan and refrigerate while you prepare the apples.
- Peel the apples and cut them in half through the stem.
- Remove the stems and cores with a sharp knife and a melon baller. Slice the apples crosswise in 1/4-inch thick slices.
- Place overlapping slices of apples diagonally down the middle of the tart and continue making diagonal rows on both sides of the first row until the pastry is covered with apple slices. (I tend not to use the apple ends in order to make the arrangement beautiful.)

- Sprinkle with the full 1/2 cup of sugar and dot with the butter.
- Bake for 45 minutes to 1 hour, until the pastry is browned and the edges of the apples start to brown. Rotate the pan once during cooking. If the pastry puffs up in one area, cut a little slit with a knife to let the air out. Don't worry! The apple juices will burn in the pan but the tart will be fine! When the tart's done, heat the apricot jelly together with the Calvados and brush the apples and the pastry completely with the jelly mixture. Loosen the tart with a metal spatula so it doesn't stick to the paper. Allow to cool and serve warm or at room temperature.
