Ingredients

- 1.3 cups flour
- 0.5 teaspoon apple cider vinegar
- 1 teaspoon double-acting baking powder
- 0.3 teaspoon baking soda
- 2 large eggs
- 0.5 teaspoon ground allspice
- 1.3 teaspoons ground cinnamon

- 1 teaspoon ground ginger
- 2.3 pounds delicious apples cored peeled cut into 6 wedges,
- 0.5 teaspoon salt
- 0.5 cup cream sour
- 4 tablespoons sugar
- 13 tablespoons butter unsalted room temperature
- 1.5 teaspoons vanilla extract
- 1 cup whipping cream

Equipment

- bowl
- frying pan
- sauce pan
- oven
- whisk
- aluminum foil
- springform pan

Directions

- Preheat oven to 350°F. Spray bottom of 9-inch-diameter springform pan with nonstick spray. Line bottom with foil; spray foil. Wrap outside of pan with foil.
- Melt 3 tablespoons butter in large nonstick skillet over medium-high heat.
- Add apples; sprinkle with 1 tablespoon sugar. Sauté apples until almost tender and beginning to brown, about 6 minutes.
- Sprinkle with 3 tablespoons sugar. Increase heat to high and toss until sugar melts and apples are deep brown, about 4 minutes.
- Pour apple mixture onto large plate (do not clean skillet).
- Melt 4 tablespoons butter in same skillet over medium-high heat.
- Add 3/4 cup sugar and cook until mixture is deep golden brown, stirring often, about 7 minutes (mixture will be grainy).

- Add cream and vinegar (do not stir). Cover skillet, reduce heat to medium-low and simmer without stirring until most of caramel bits dissolve, about 8 minutes. Uncover and whisk until sauce is slightly thick, deep brown and reduced to generous 1 cup, about 3 minutes longer.
- Pour caramel sauce into small saucepan.
- Spread 3 tablespoons caramel sauce over bottom of prepared pan. Arrange apple wedges side by side, rounded side down, in caramel in 2 concentric circles. Sift flour and next 6 ingredients into bowl. Beat 6 tablespoons butter and 1 cup sugar in large bowl to blend (mixture will be grainy). Beat in eggs 1 at a time, then vanilla and 1/4 cup caramel sauce. Beat in half of dry ingredients, then sour cream, then remaining dry ingredients.
- Spoon batter evenly over apples.
- Bake cake until tester inserted into center comes out clean, about 1 hour 15 minutes. Cool cake in pan 5 minutes.
- Cut around cake; remove pan sides. Cool cake 15 minutes longer.
- Place platter atop cake; invert cake onto platter.
- Remove pan bottom and foil. Replace any dislodged apples. Rewarm remaining caramel sauce.
- Serve cake warm or at room temperature with sauce.
